Financial Policy

In effort to avoid any misunderstanding, we would like to review our financial policies before you or your child begins dental treatment in our office.

Payment is expected for treatment rendered at the time of service. We accept MC/Visa, checks and cash. For extensive services, we offer payment plans.

There is a fee of \$30 for missed appointments and for appointments that are not canceled with 24 hour notice.

For patients with dental insurance our policy is as follows:

You will need to supply us with the subscriber information (name, date of birth, employer, ID # and /or group #) as well as the name and address of your insurance company. Any specific questions you may have relative to your insurance coverage should be made directly to your insurance company.

As a courtesy to our patients we will gladly submit an insurance claim to your insurance company. We will collect your estimated co-payment and deductible at the time of service and your insurance company will pay our office directly. We make every effort to determine benefits when you or your child receive treatment but consider your co-payment to be an **estimate** until we receive the actual payment form your insurance company.

Please bear in mind that any information that we provide relative to your insurance benefits is just our best estimate and not a guarantee of the payment that will be received.
